March 2018 Report

Dear loving Brethren.

Greeting to all of you in Jesus name, I hope and pray that you are all well. I am dropping this letter to thank you for the second quarter of your support I got recently, I pray Almighty God to bless you hundred fold. Your support is helping much in spreading the gospel this area, and for upkeep of the local churches in sound doctrine of Christ for salvation of many, without your help the work should have been very difficult to progress. We are going to have a two day gospel work with the church at a place called Enugwu-Ukwu town about five miles from Awka , that is on 13th and 14th April 2018, by God's grace we are expecting more converts to the Lord's church there. My teaching visit to the churches in this area is still on.

Last two month ago at that Enugwu-Ukwu town I taught in the class of brethren about the Lord's Church being a kingdom of God on earth. I am called upon to come and teach it because there is a newly converted former Jehovah's Witness member who still holds the view that God's Kingdom on earth is still on waiting to come according to Matt. 6:10. We deliberated much on this discussion on book of (Daniel 2:44). However, after much discussion he became convinced through (Colossians 1:13), and some other bible passages that are showing the kingdom has already come as promised, and it is the Lord's Church (Mt.16:18, Isa. 2:2-3). Brethren on the sad note though glory be to God I lost my aged mother at 94 on 22nd March 2018. She was the first Christian sister converted together with my late father in 1965. They were the first Christian Converts in the old Anambra State through the American missionaries, those he invited from a place called Onicha Ngwa, missionaries, Bros Curry and Kezzy on March 6, 1995. My father was a former Pentecostal preacher who invited those missionaries to preach the truth in our area. He then converted through his influence some other Pentecostal local churches around our area. I continued where he stopped in his mission work since 1977 he died.

We are arranging now to fix her burial in two months' time. The burial will attract many members of the church from the southeast Nigeria, who have heard about her passage, please continue to pray for our family and brethren here to bear the burden easily.

I stop here and will write more details next mail. Thanks and be more blessed in the Lord.
