May 2020 Report

May 21, 2020

Dear brethren:

I have prayed for the physical welfare of my brethren and loved ones during this pandemic. While not really a "milestone," one may label such a bad "landmark" in life. I hope all at Benchley are okay.

While I naturally have no record of attendance and contribution for April, we here in Branson did have a small service on the 10th of this month. With so many fearful of venturing out, there were only 3 present, with the contribution around \$800.00. The large dollar amount for such a small number present would indicate a "catch up" of sorts. I am surmising that with this weekend's being Memorial Day Weekend, there just might be the "breaking of the ice," so to speak, thus, some people may venture out.

Sue and I are fine. Sue of course must deal with her usual physical infirmities, and I do admire her strong constitution to keep on keeping on. She has morally supported me well as a preacher's wife. Please continue to pray for her aged mother, who is in her later stages of dementia, along with suffering from lung cancer, diagnosed recently.

This pandemic should make us ALL realize the fragility of life, along with the vast abundance of sin we must live around and deal with during our earthly stay.

Thank you all once again for your financial support. May we all pull through this turbulent sea of crisis and land back on the shore of normalcy again. Take care.

In Christ,
Philip North
